

## Description

TTK FG-DLC liquid cooling leak detection systems offer a full range of connection accessories as leading cables, kits and end terminations. These items assure a proper functioning of the systems.

For water range connection accessories refer to the FG-Accessories datasheet; for fuel range connection accessories refer to the FG-OD Accessories datasheet.

## Leading Cables & Kit

| Item                                                                                                       | Description                                                                                                                    | Compatibility & Connectivity                                     |
|------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------|
| <b>FG-NCL 1/3/7</b><br> | Leader cable BUS 8723 in 1, 3 and 7m to connect between two sense cables for liquid cooling                                    | Alarm unit: digital units FG-NET, FG-BBOX<br>Sense cable: FG-DLC |
| <b>FG-NCL-F</b><br>     | Pre-connected 1m jumper cable with female connector                                                                            | Alarm unit: digital units FG-NET, FG-BBOX<br>Sense cable: FG-DLC |
| <b>FG-NCL-M</b><br>     | Pre-connected 1m jumper cable with male connector                                                                              | Alarm unit: digital units FG-NET, FG-BBOX<br>Sense cable: FG-DLC |
| <b>FG-NCL Kit</b><br>   | Set of parts for connecting jumper cables. It includes male, female connectors, contacts, adhesive and heat shrinkable sleeve. | Alarm unit: digital units FG-NET, FG-BBOX<br>Sense cable: FG-DLC |

# End Termination

| Item                                                                                                           | Description                                                                                                                                            | Compatibility & Connectivity                                     |
|----------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------|
| <div>FG-TLC</div> <div></div> | End termination plug for FG-DLC.<br>Each circuit of sense cable must be ended with an end termination plug. FG-TLC is used for the circuit continuity. | Alarm unit: digital units FG-NET, FG-BBOX<br>Sense cable: FG-DLC |

# Installation Accessories

| Item                                                                                                            | Description                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>ES-EC</div> <div></div> | Set of 40 tags.<br>Labels ES-EC indicates the presence of installed sense cables.<br>It is recommended to fix the labels every five meters on the circuit of sense cables and ensure a good visibility of the labels. |
